

Watermelon Mojitos

Ingredients:

- * 6 cups cubed watermelon
- * 1 cup Sonoma Syrup Mint Infused Simple Syrup
- * 20 fresh mint leaves
- * $\frac{3}{4}$ cup fresh lime juice
- * 1 cup white rum
- * club soda
- * ice

Instructions:

Blend watermelon in a blender until pureed. Strain to remove some of the pulp. Measure out 2 cups of the strained watermelon juice. Place fresh mint in the bottom of a large pitcher. Add a little bit of the watermelon juice and muddle to release the flavors of the mint. Add remaining watermelon juice, fresh lime juice, $\frac{2}{3}$ cup mint syrup and rum. Fill the entire pitcher with ice. Top with soda. Adjust sweetness with additional mint syrup if desired. Garnish with additional lime, mint and watermelon slices. Serve immediately.
